ATTACHMENT G  
APPLICATION FOR REGISTRATION OF LANDSCAPE PROFESSIONAL  
 (excerpted from Water Demand Management Initiatives)

Registration requirements apply to individuals, not to companies or organizations. The registered individual is responsible for all work performed under his/her supervision.

Registrations may be granted via reciprocity to individuals who hold registrations in other Colorado municipalities, on a case-by-case basis, as deemed appropriate by the Community Authority Board ("CAB"). An applicant must demonstrate that he/she meets the requirements by providing current proof of professional qualifications (see attached list). In the absence of these credentials, an applicant may submit a narrative listing three most recent projects, dollar amount, completion date, and contact information for the person for whom the project was done. The CAB reserves the right to deny, suspend, or revoke any registration in accordance with its policies.

Colorado law governs the sizes and types of projects that unlicensed individuals can design, and is independent from CAB policies.

Registrations are valid for a period of three (3) years. Registration renewals for professionals in good standing may be issued upon receipt of acknowledgment of revisions to policies, criteria, or other applicable codes. Non-compliance with these policies may deem an applicant ineligible for renewal.
